Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5, 14-18, and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Speckert (5894969).

Speckert teaches a garment hanger (Figures 1 and 2) comprising a frame having a plurality of arms projecting outwardly from a center of the frame, a hook member attached to the center of the frame having a mount section, a substantially closed unequal triangular loop section, and a hook section, the loop section sized that a hook of another hanger may be placed in the loop section without catching articles formed from a continuous piece of plastic.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 4, 6-13, and 19-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Speckert.

Speckert essentially teaches the invention as discussed above, including a specific loop shape, but fails to teach the myriad of shapes Applicant teaches. It would have been obvious to

one of ordinary skill in the art, at the time the invention was made, to make the hoop section a different shape besides a triangle, so as to add decorative benefits to the hanger. The shape of the hoop is inconsequential to the function of the hanger, and the ordinarily skilled artisan would have obviously known to substitute whatever shape he saw as desirable, as is known in the art.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Timbrook (5971237), Balser (6041985), Rahmey (6209763), and Cohen (6105834) all teach what is well known in the art.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shaun R. Hurley whose telephone number is (571) 272-4986. The examiner can normally be reached on Mon - Fri, 6:30 am - 3:00 pm, off second Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John J. Calvert can be reached on (571) 272-4983. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
